PRIVACY POLICY – Information document about personal data processing

1. Data controller

Bonetto art-legno srl

Via Saviabona 125

36010 Cavazzale di Monticello Conte Otto (Vicenza, Italy)

VAT number 02003570245

2. Types of Data collected

The Personal Data collected by this Website, autonomously or through third parties, include: Cookies, Usage data, e-mail address and name.

Other Personal Data collected may be indicated in other sections of this privacy policy or in information tests displayed during the Data collection.
The Personal Data may be given voluntarily by the User or automatically collected during the use of this Website.
If not otherwise specified, this Website or the providers of third-party services used by this Website may use Cookies – or other tracking tools - to identify the User and save his/her preferences for purposes strictly connected to the supply of the service requested by the User.
If the User does not provide some of his/her Personal Data, this may cause the impossibility for this Website to supply its services.

The User takes responsibility of the Personal Data of third parties published or shared through this Website and ensures to have the right to communicate or disclose them, discharging the Data controller from any liability towards third parties.

3. Processing method

The Data controller processes the Personal Data of Users adopting the appropriate safety measures to prevent unauthorised access, disclosure, change or deletion of Personal Data.
The processing is carried out by using computer and /or telematic tools, with organisational methods and logic strictly related to the purposes mentioned. Apart from the Data controller, in some cases Data may be available to specific categories of appointed subjects that are involved in the website organisation (administrative, commercial, marketing, legal personnel, system administrators) or external subjects (such as third-party service providers, mail couriers, hosting providers, IT companies, communication agencies) that can be designated by the Data controller, if necessary, as Data processors. The updated list of Data processors can always be requested to the Data controller.

4. Purposes of Data Processing

The User's Data are collected to allow the Data controller to supply its services, as well as for the following purposes: Navigation statistics and Contact the User.

5. Further information on the processing

5.1 Legal defence

The User's Personal Data may be used by the Data controller in legal proceedings or in their preparatory phases. The Data controller may refer to them in the defence against misuses or in those cases when the connected services were inappropriately used by the User.
The User declares to be aware that the Data Controller may disclose the Data upon request of the public authorities.

5.2 Specific information documents

Upon request of the User, in addition to the information contained in this privacy policy, this Website may provide the User with additional and contextual information about specific services, or request the collection and processing of Personal Data.

5.3 System logs and maintenance

For operation and maintenance requirements, this Website and the third-party services possibly used by it may collect system Logs, i.e. files that record the interactions and that may contain also Personal Data, such as the User IP address.

5.4 Information not contained in this policy

Further information related to the processing of Personal Data may be requested at any time to the Data Controller by using the contact information provided.

6. User's exercise of the rights

At any time, the Data subjects have the right to obtain confirmation of the existence of their Data at the Data controller, to get to know the content and the origin, to verify the exactness or ask their integration, deletion, updating, rectification, transformation into anonymous form or the block of the Personal Data that were processed unlawfully, as well as to oppose their use for any legitimate reason. The requests may be submitted to the Data Controller.
